OPERATIONS, ANALYTICS & TRANSFORMATION LEADER

Driving enterprise efficiency, secure digital modernization, and decision-assured operational excellence

---

PROFESSIONAL SUMMARY

Over 30 years, I've guided organizations to **make better decisions when data, analytics, or automated systems carry real risk**. I specialize in **decision assurance, governance, and operational oversight**, ensuring leaders act on information they can trust.

I combine hands-on technical expertise — in analytics, automated workflows, and cloud modernization — with **executive-level strategic leadership, operational impact, and team mentorship**. I thrive at the intersection of technology, operations, and governance, helping organizations **modernize systems, optimize resources, scale efficiently, and mitigate risk**. Open to senior advisory, consulting, or international leadership opportunities.

CORE COMPETENCIES

Enterprise Operations & Strategy | Workflow Modernization & Automation | Predictive Analytics & Reporting | Decision Assurance & Risk Mitigation | Change Management & Stakeholder Engagement | Team Mentorship & Talent Development | Infrastructure & Cybersecurity Modernization | Budgeting & Cost Control | Global Product & System Rollouts | Compliance & Regulatory Oversight

---

PROFESSIONAL EXPERIENCE

Coordinator, Infrastructure and Reporting
Aboriginal Employment Services (AES) Inc., St. John's, NL | 2021 – Present

- Directed enterprise infrastructure modernization, transitioning systems from physical servers to virtualized environments and Azure cloud, reducing outsourcing costs and improving operational scalability and security.
- Led rollout of R/Power BI automated reporting, reducing reporting cycles from 3 weeks to 1 day and enabling real-time decision-making across Finance, HR, and Operations.
- Developed and enforced cybersecurity, AI governance, disaster recovery, and operational policies, enhancing compliance and organizational resilience.
- Provided mentorship and guidance to analysts and operational teams on critical thinking, risk mitigation, and responsible use of automated systems.
- Supported budgeting and financial oversight for National Indigenous Communities, increasing transparency and operational accountability.

- Directed Health, Wellness & Safety and Emergency Measures programs; maintained First Aid/CDE and Diversity Training compliance.

Early Growth Partner (Consultant)
Workflow Intelligence & Technology Services, Paradise, NL | 2018 – 2021

- Led enterprise SaaS and cloud workflow modernization projects, managing multi-site, cross-functional teams through complex migrations and global system rollouts.
- Directed vendor collaboration and internal teams to implement secure, compliant analytics and content management solutions aligned with client objectives.
- Designed predictive dashboards, SOPs, and multi-language training materials; mentored client teams to sustain improvements and adoption post-implementation.
- Managed executive client relationships, aligning technology, operations, and strategy to deliver measurable cost savings, efficiency gains, and successful global launches.

Professional Services Solutions Consultant
Xerox Canada Limited, St. John's, NL | 1995 – 2017

- Directed cross-functional teams delivering multimillion-dollar, multi-site infrastructure, analytics, and workflow automation initiatives on time and on budget.
- Built and deployed secure, automated enterprise workflows and analytics dashboards, improving operational efficiency, compliance, and stakeholder transparency.
- Mentored and coached sales and service teams in analytics-driven customer engagement and solutions selling, boosting regional revenue and maintaining >97% customer satisfaction.
- Supervised regulatory compliance initiatives and trained client teams to ensure seamless delivery of secure, data-driven solutions.
- Partnered with C-level executives to translate analytics insights into strategic initiatives and presented organizational vision to leadership.

EDUCATION

- **MBA, Management Information Systems & Operations Management**, Dalhousie University
- **B.Sc., Computer Science & Mathematics (Statistical Analysis)**, Memorial University of Newfoundland

---

CERTIFICATIONS

- Operations Management Professional, Jack Welch Management Institute
